

Creating a Pain Clinic- A Physicians Workshop

A Hands-On Clinical Workshop Providing Skills for Creating A
Regenerative Pain Clinic
Instructor: Dr. Katie Carter ND

Discovering the Skills in Putting Regenerative Therapies Together Will be the Emphasis of this Program.

There is an art to using the right therapy for pain at the right moment. Masters use a palate of therapies in certain sequences for optimal results. The basics of this art will be taught in this workshop. We will focus on how to make being a pain specialist an absolute joy in your life. Practicing medicine with the utmost respect for the body's ability to heal brings tremendous satisfaction to a practitioner.

What You Will Learn

- Hands on Prolozone™
- Hands on Prolotherapy
- Hands on Perineural and Neurotherapy
- Hands on PRP
- Fundamentals of Classical Homeopathic Keynote Prescribing
- LDN
- Nutrition and Diet for the Pain Patient
- Hormones
- Biotoxins

- LDA

This workshop is for you if you:

- Have taken the Shallenberger Certification Course
- You want to specialize in regenerative pain therapies.
- You want a full 'toolbox' of regenerative therapies.
- You want to hone your injection skills.
- You are looking for a solid 'put it all together' course.
- You want one on one attention that a small group provides.
- You need a generator and supplies.
